

**Insert your title here, in all titles capitalize only first letter. No trailing dot, please**

First Author<sup>1,3,\*</sup>, Second Author<sup>2</sup>, and Third Author<sup>3</sup>  
for the XXXXX Collaboration

<sup>1</sup>Insert the first institution here (name, city, country)

<sup>2</sup>the second here (try to fit each institution in one line)

<sup>3</sup>Last institution

**Abstract.** Insert your English abstract here. It should be as concise as possible, continuous text with no paragraph structure. Abstract should contain no references, formulae or figures.

## 1 Introduction

Your text comes here. Please respect the following rules:

1. For larger collaborations, give only initials of the authors' first names, making sure to insert non breaking spaces where necessary, e.g. P. A. M. Dirac.
2. Remember that each comma in the text should be followed by a space.
3. Do not change spacings between article components, leave them default (we will rather accept a longer contribution than a re-formatted paper!).
4. When referring to particle species by their symbols, ALWAYS use math mode, also in the text, e.g.  $K_0$ ,  $\rho$ ,  $B_s$ .
5. All elements in all figures must be readable in print, thus too small axis labels or titles should be avoided. All figures should be of good quality (at least 300 dpi).
6. When referring to figures write "in Fig. 1", when referring to tables write "in Table 1", when referring to other papers write "in Ref. [1]" or simply "in [1]", when referring to equations "in Eq. (3)" and to sections "in Sect. 2.1".
7. Stick to the proposed format of bibliography items, add arXiv numbers ONLY for the papers that have not been published in journals. Use only approved abbreviations of journal titles.
8. Remember to embed all fonts into your final pdf file.

2 Section title

For bibliography use [1]

2.1 Subsection title

Do not forget to give each section, subsection, subsubsection, and paragraph a unique label (see Sect. 2).

For figures use syntax as below. of Fig. 1

**Figure 1.** Please write your figure caption here. Do not forget about the trailing dot.

For figure with sidecaption legend use syntax of Fig. 2.

**Figure 2.** Please write your figure caption here. Do not forget about the trailing dot.

For tables use syntax in Table 1.  
If you have nothing to write here, just remove the section.
